

This is just a example of "How you can give commands"

like for example there is a commnad "play music" so you can say that would you "play some music for me" or the alternative of it like "I would like to listen some musics".

But not all alternative will work.

- 1) Search Mode/ search something for me/
- 2) Wikipedia (your search)
- 3) Toss a coin
- 4) Where am i?
- 5) Take a note / Make a note
